

Hawai'i Energy + you

Start Saving Money With Our Rebates!

Hawaii Energy's cash rebates can help you to invest in energy-efficient equipment for your home. These installations quickly pay for themselves and the savings keep coming year after year. Here are just a few examples:

SOLAR WATER HEATING

An electric water heater often adds hundreds to the electric bill annually. With our rebate, you can switch to a solar water heating system for about \$2,000* and reduce the cost of water heating significantly. Must be installed by a Participating Contractor; see list at HawaiiEnergy.com.

*Actual savings and costs may vary depending on federal and state tax credits.

TUNE-UP a solar water heater that is 3 or more years old.

\$500

\$100

HEAT PUMP WATER HEATER

For families with less than 3 people, consider installing an ENERGY STAR® heat pump water heater.*

*less than or equal to 55 gallons

\$300

REFRIGERATORS

A fridge older than 20 years could be 2-3x more expensive to operate than an ENERGY STAR® model. Upgrade to a newer model or recycle your extra fridge and earn cool cash! New models must be purchased at a participating retailer (see reverse).

TRADE-IN an old refrigerator when buying any ENERGY STAR® model*

\$100

RECYCLE an extra fridge or freezer in Maui county†

\$65 + free haul-

RECYCLE an extra fridge or freezer in Honolulu county†

\$50 + free haul-

*Must be greater than 16 cu. ft. †Must be greater than 14 cu. ft. Call Hawaii Energy to schedule.

LIGHTING

LEDs and CFLs use 75% less energy to produce the same light (lumens) as incandescent bulbs.

Visit a participating retailer to receive instant discounts on several types of bulbs. See reverse for retail locations.

WINDOW AIR CONDITIONERS

Receive free pickup and recycling for old, working units and earn a rebate toward the cost of a new window AC. Must have an Energy Efficiency Ratio (EER) of 11.2 or higher. Portable ACs also qualify for recycling.

\$50 + free haul-

SOLAR ATTIC FANS

Solar attic fans cool your roof and may reduce the load on your air conditioning system.

\$50

WHOLE HOUSE FANS

Draws cooler, outside air through your living space by pushing hot air out of the home and out of the attic vents, creating a cooling breeze.

\$75
